Rapid Recreation of Meshed Real-World Networks in Virtualized Environments

- ✓ Certified VMware Ready™
- ✓ Virtual Appliance
- ✓ Identical Features to INE Rack-Mount Appliances
- ✓ Free Trial

OVERVIEW

iTrinegy's INE Flex Network Emulator range combines the cost and flexibility benefits of virtualization with the ability to recreate a wide range of realistic network conditions delivered by iTrinegy's industry-leading Network Emulation technology.

COMPREHENSIVE FEATURES & BENEFITS

The INE Flex Virtual Appliances (INE Flex Enterprise /1Gbps and INE Ultra/10Gbps) are built to address the needs of Enterprises that wish to create Virtual Test Networks that look and feel just like production networks. The feature-rich award-winning INE family offers enterprise-class scalability, high-performance and manageability in a virtual single appliance.

Features include:

- Easy-to-Use Drag-and-Drop INE Visio®-like Network Drawing Interface
- Scalable Virtual Port Multi-tenanted architecture
- User Programmable Architecture
- Point-to-Point, Star Coupled, Meshed & Partially Meshed Networks
- Over 50 Network Impairments
- Graphs & Statistics
- Command Line Interface

INE Flex Virtual Appliances enable organizations to verify application performance, within a virtual-only or hybrid environment, over networks such as LAN, WAN, Internet (cloud), WiFi, (A)DSL, Mobile and Satellite.

INE FLEX MODELS

The INE Flex Emulator is available in a choice of models to suit your needs:

INE Flex Enterprise Emulator Model 2:

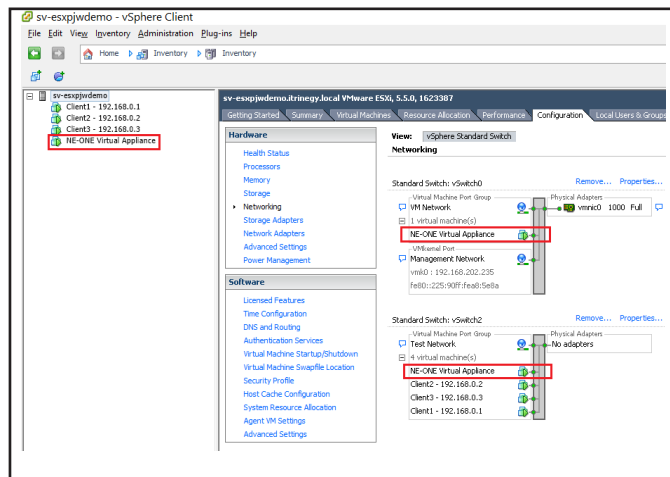

- 2 x 1 Gbps Emulation Ports
- 10 Network Objects

INE Flex Ultra Emulator Model 2:

- 2 x 10 Gbps Emulation Ports
- 2 x 10 Gbps Emulation Ports
- 10 Network Objects

VMWARE READY

INE is VMware Ready™ certified so you can be assured that it has been optimized for VMware vSphere and interoperates seamlessly with the virtual infrastructure. It has met VMware's specific integration and interoperability standards. The VMware Ready Logo indicates the unique features and capabilities of VMware-integrated products and solutions and a solid commitment to long-term feature support. Every INE Virtual Appliance is provided with VMware Tools pre-installed. Furthermore, iTrinegy is an established VMware Partner and the VMware Ready Certification designates VMware's highest level of endorsement for products and solution.

FREE TRIAL

The INE free trial provides you with unrestricted access to all of the features and benefits. To start your free trial:

- Request the Installation and Configuration Guide from support@itrinegy.com.
- Download the Virtual Appliance image.
- Request a licence key.
- Start your free trial.

INE VIRTUAL MACHINE TECHNICAL SPECIFICATIONS

The following are the default and minimum specifications for a typical installation.

- 2 x CPUs
- 8GB RAM
- 16GB Hard Disk (Thin Provisioned)
- 3 x Virtual NICs
 - 1 x Network Management
 - 2 x Network Emulation
