## VMWARE READY

All NE-ONE Virtual Appliances are certified Partner Ready for VMware's vSphere so you can be assured that they have been optimized for VMware vSphere and interoperate seamlessly with the virtual infrastructure. They have met VMware's specific integration and interoperability standards. The Partner Ready Logo indicates the unique features and capabilities of VMware-integrated products and solutions and a solid commitment to long-term feature support. Every NE-ONE Virtual Appliance is provided with VMware Tools pre-installed. Furthermore, iTrinegy is an established VMware Partner and the Partner Ready Certification designates VMware's highest level of endorsement for our products and solutions.

## OPENSTACK COMPATIBLE

Offered as OpenStack Compatible, the NE-ONE Family has proven compatibility to interact with OpenStack Powered Clouds that utilize the KVM hypervisor.

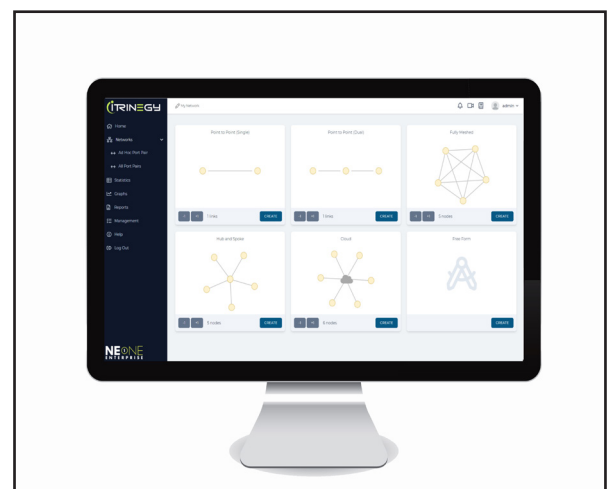

## FREE TRIAL

The NE-ONE free trial provides you with unrestricted access to all of the product's features and benefits. To start your free trial:

- Download the Installation and Configuration Guide
- Download the Virtual Appliance image
- Request a licence key from our Customer Support Team
- Start your free trial.
